Samuel's Willett model 2600 barcode printer/applicator/scanner smoothes the flow at Rogers Sugar.

Barry Black, Assistant Purchasing Manager (left)
Goran Belic, Project Engineer

Reliable, solid performing equipment is essential in the low-margin sugar processing industry. That's why Goran Belic, Project Engineer at Rogers Sugar, turned to the experts at Samuel Strapping Systems for an all-in-one barcode printing/applying/scanning method that would be trouble free and cost effective.

Samuel Strapping Systems met the challenge! Recommending, installing, and maintaining the highly versatile Willett 2600 Printer/Applicator and Scanner was just the ticket to keep things sweet at Rogers Sugar.

Samuel Strapping Systems has a wide range of packaging solutions for just about any application. Tell us about your operation and we'll provide a custom solution just for you. Ask us how today.
